

Thank you for your interest in competing in the HQH Saddle Showcase. We would be thrilled to have you! We are recognized by the AQHA as a Ranching Heritage breeding program. By owning one of our horses, you are eligible to compete in five national events that have more than \$18,000 at each within purse monies. This is the final year to nominate those horses that are older than age four. Our saddle competition is going to reflect many of the requirements that are required within the heritage challenges. We do not anticipate our competition having all of the required elements of the heritage. We are still in discussion whether the pattern will be released to all entries prior to our showcase. We will let all entries know when the pattern is available. In the meantime, you can learn what all of the elements are by visiting:
